The amendment provides that should the Controller fail to perform his duty when a Legislature makes no appropriation, owner of state bonds may resort to mandamus proceedings against the Controller.

The third amendment, also from the Fissace Committee, is designed to distinct the \$29,000,000 surplus in the sinking fund for the payment of canal and highway debts over the remaining pears of the life of bonds outstanding. This, the committee feels, is just both to the taxpayer and the bondholder.

Explosion Barely Averted

ONE MINUTE.

The body of an unidentified man was found in the bushes in Central Park. He had shot himself over the right ear with a revolver.

John Le Marsh, of the Texaco Oil Company, was freed from a charge of grand larceny made against him by James J. Clare, of Long Island City. Clare alleged Le Marsh had removed an oil tank from his hotel when he refused to raise the price of oil from 13 to 15 cents. Le Marsh contended the removal of the tank was a mistake.

Just as he was about to strike with a crowbar some sticks of dynamite that had been placed in his barn Albert Forster, of West End, N. J., decided to investigate, and probably saved his life.

As a result of a fight with his brother-in-law James McQuirk, forty-six years old, of 125 Van Horn Street, Jersey City, died. McQuirk's injuries were caused by falling to the ground in a clinch.

Schneider there are 91 divorce actions begun by men and 94 by women; 15 separation suits by men and 98 by women; 11 annulments by hen and 16 by women. The apparent disproportion in the matter of husband plaintiffs in separation suits is explained by the fact that the grounds for separation in this state are non-support, abandonment and crueity.

Many of those brought by the wives are principally 'or support, which the husband cannot invoke, his grounds being limited to crueity and abandonment. There have been several in which the husband plaintiff allered that he was treated cruelly by his wife.

Exports in May Last Fell to \$400 from \$20,000,-000 in 1914.

#### REST OF EUROPE TAKES MORE GOODS

Foodstuffs Lead This Country's Foreign Commerce Throughout Fiscal Year.

Washington, July 10 .- The extent to which the European war affected the

country for the eleven months period the figures note that imports showed a decrease from Europe, while for all the rest of the world there was an in-crease. The export trade was just the reverse, increases being noted only in the case of Europe. Exports to Europe for the eleven months period jumped

\$70,000,000, and exports approximately \$280,000,000. Imports of manufactures for further use in manufacturing decreased approximately \$61,000,000, and exports \$35,000,000.

Foodstuffs played the most important part in the foreign commerce of the United States during the last fiscal year. Exports of foodstuffs partly or wholly manufactured were valued at \$4805,373,144, during the eleven months ended with May. 1915, as compared with \$272,765,411 for the corresponding period last year; while exports of foodstuffs in crude condition and food animals were valued at \$481,110,384 for the eleven months period of this year, as compared with \$126,408,965 last year. Despite the big demand on the United States for foodstuffs during the period from August last up to the present time, it is interesting to note that imports of foodstuffs partly or wholly manufactured to this country increased from \$199,831,107 for the eleven months ended with May 31, last year, to \$255,414,873, an increase of approximately \$55,000000. Imports of foodstuffs in crude condition and food animals showed a loss of approximately \$24,000,000.

Horses to the value of \$8,169,267 and mules to the value of \$2,705,827 were shipped out of the country during May last, while for the eleven months period exports of horses reached a total value of \$55,953,115, and of mules \$10,183,841.

Approximately 33 1-3 per cent of the total exports of the country for the eleven months ended May last went to Great Britain. The value of these exports was \$823,611,409; while France bought of the United States during that period merchandise to the value of \$326,289,744; Canada bought \$271,130,-682 worth; Italy, \$165,636,810; Belgium, \$19,078,569; the Netherlands, \$135,615, \$257; Norway, \$37,967,485; Sweden, \$76,-254,370; Cuba, \$68,595,115.

Two weeks ago Harry Bradshaw signified his intention of enlisting in the British army.

"I told him he could go for all I cared," she said as she shrugged her shoulders and tried to laugh unconcernedly. "He is no use to me. He wouldn't work, and I am sure I don't purpose to work for both of us."
